

Calgary West Soccer Centre (CWSC) prohibits the operation or use of aerial drones by the general public – including recreational users and hobbyists – to ensure the safety of guests, employees, and property. CWSC visitors can operate drones for commercial use if applicants meet all of CWSC's requirements, as outlined below. Applicants must apply for a permit to fly a drone.

Drone Requirements:

- Legitimate commercial purpose for use of the drone.
- Pilot must have Special/Advanced Flight Operations Certificate issued by Transport Canada if using drones weighing more than 250g or are flying above spectators/bystanders at 100 feet (30 Meters) distance or less.
- Pilots using drones weighing more than 250g must file a [flight authorization request](#) through NAV Canada and provide confirmation approval to fly over WinSport.
- Proof of Workers Compensation Board (WCB) coverage.
- Proof of general liability insurance (\$5,000,000 minimum coverage as standard).
- CWSC may request photos and videos be made available to CWSC for internal or marketing purposes.

All drone permit applications are reviewed by CWSC. If approved, the applicant will receive a permit that must be readily available to show to CWSC staff upon request. The permit will only be usable during the dates and times indicated on the permit.

Any violation of this policy may involve suspension of your soccer club's privileges, as well as confiscation of any equipment. Violators will be liable for any damages, including but not limited to, physical or personal injuries, property damage, damage resulting in violations of privacy, regulatory fines, and legal fees.
